***Abrupt 2024***

Mai 14, 2024

In the late afternoon, we photograph a 50x50cm area on the grounds of the Art and Nature Foundation in Nantesbuch near Munich, Germany.

end of Mai 2024

We produce a backlit-foil with the photo and insert it into a light box, as used in the advertising industry.

October 12, 2024

We are back on the foundation's ground. In the morning, we take out soil and plants, put them aside and place the light box, which we supply with electricity via a battery, in the hole.

In the afternoon, we visit the site with guests and discuss time.

In the evening, we look at the installation again together with the guests. We then remove the light box and put the soil and plants back.
